

ASSEMBLY WORKSHOP

In our production facilities,
we also provide assembly
and packaging services,
including domestic and
international transportation
arrangements

What can we offer?

Simple and more complex manual assembly operations:

- joining parts - ultrasonic welding, riveting, crimping, screwing
- product completion to final form
- labeling, gluing, inserting into packaging, packaging, and complete preparation for shipment

Transportation

- we have long-term cooperation with a transportation company that allows delivery of larger pallet quantities throughout the Czech Republic, as well as abroad
- for domestic transportation and in the case of smaller quantities of finished goods (up to 4x EUR pallet), we provide delivery with our own transportation
- for small quantity deliveries, we use the services of trusted courier companies, selected based on individual calculation to ensure reliable delivery and the most advantageous shipping costs
